§ 1491.3 Definitions.

The following definitions may be applicable to this part:

Agricultural uses are defined by the State's Purchase of Development Rights (PDR) program, or where no PDR program exists, agricultural uses should be defined by the State agricultural use assessment program. (If the Agency finds that a State definition of agriculture is so broad that an included use could lead to the degradation of soils, NRCS reserves the right to impose greater deed restrictions on the property than allowable under that State definition of agriculture in order to protect topsoil.)

Chief means the Chief of NRCS, USDA.

Commodity Credit Corporation (CCC) is a Government-owned and operated entity that was created to stabilize, support, and protect farm income and prices. CCC is managed by a Board of Directors, subject to the general supervision and direction of the Secretary of Agriculture, who is an ex-officio director and chairperson of the Board. CCC

provides the funding for FRPP, and NRCS administers FRPP on its behalf.

Conservation Easement means a voluntary, legally recorded restriction, in the form of a deed, on the use of property, in order to protect resources such as agricultural lands, historic structures, open space, and wildlife habitat.

Conservation Plan is the document that—

(1) Applies to highly erodible cropland;

(2) Describes the conservation system applicable to the highly erodible cropland and describes the decisions of the person with respect to location, land use, tillage systems, and conservation treatment measures and schedules;

(3) Is approved by the local soil conservation district in consultation with the local committees established under Section 8(b)(5) of the Soil Conservation and Domestic Allotment Act (16 U.S.C. 5909h(b)(5)) and the Secretary, or by the Secretary.

Contingent right is an interest in land held by the United States, which the United States may exercise under specific circumstances in order to enforce the terms of the conservation easement or hold title to the easement.

Eligible entities means Federally recognized Indian Tribes, States, units of local government, and certain non-governmental organizations, which have a farmland protection program that purchases agricultural conservation easements for the purpose of protecting topsoil by limiting conversion to non-agricultural uses of the land.

Additionally, to be eligible for FRPP, the entity must have pending offers, for acquiring conservation easements for the purpose of protecting agricultural land from conversion to non-agricultural uses.

Eligible land is privately owned land on a farm or ranch that has prime, unique, Statewide, or locally important soil, or contains historical or archaeological resources, and is subject to a pending offer by an eligible entity. Eligible land includes cropland, rangeland, grassland, and pasture land, as well as forest land that is an incidental part of an agricultural operation. Other incidental land that would not otherwise be eligible, but when considered as part of a pending offer, may be
